

Join Our Action Network

The Alaska Mental Health Trust Authority (Trust) maintains an online advocacy network that communicates with grassroots advocates on issues related to legislative issues affecting Trust beneficiaries (people with intellectual/developmental disabilities, mental health, substance abuse, Alzheimer's disease/dementia, brain injury, FASD), their families, providers, and administrators who serve Trust beneficiaries.

Participation in the Trust's Action Network includes:

- Legislative Tracking Spreadsheet – with weekly updates on bills and budget items that are moving through the legislative process (distributed on Thursday nights through the legislative session: January 19- April 17, 2016)
- Weekly Legislative Teleconferences – to discuss bills and budget items with updates about legislative action (every Friday 12:15-1:15 through the legislative session)
- Action Alerts – sent out at appropriate times offering opportunities to call in for public testimony, send emails/letters, or meet with legislators in their home districts, etc.
- Talking Points – and other information for advocates explaining legislative priorities and actions affecting Trust beneficiaries.
