

WHAT'S YOUR VISION FOR DD SERVICES?

The Alaska Mental Health Trust Authority is partnering with the Governor's Council on Disabilities and Special Education, the Alaska Association on Developmental Disabilities, and Senior and Disabilities Services to develop a shared vision to guide systems reform.

- ◆ Lots of change happening: Medicaid reform, declining budgets, new federal requirements, Employment First, technology ... the list goes on.
- ◆ What do we want our system of services and supports to look like five years from now?
- ◆ A shared vision will provide a framework to organize change and ensure we are heading toward the system we want to see.
- ◆ The project goal? To engage stakeholders in developing a common vision for Alaska's developmental disability (DD) system.
